

# METAL FINISHING e-news

A.M. Metal Finishing, Inc.

July 2009

## NEW! NEW! NEW!

A.M. Metal Finishing, Inc. has recently been licensed as a **Federal Firearms Dealer** and can now handle and plate gun parts with serial numbers. **We are the only company in Florida allowed to do so!** Many serialized gun receivers are anodized, and they are being done illegally. A.M. Metal Finishing, Inc. offers gun manufacturers a *legal* avenue to have gun parts finished to the highest of standards AND within the Bureau of Alcohol, Tobacco, Firearms and Explosives (ATF) regulations. If you are a gun manufacturer and require metal finishing, contact us.

VISIT US ONLINE

A.M. Metal Finishing, Inc. has been a premier finishing supplier to Florida industry for over 25 years. We specialize in anodizing, color anodizing, hardcoat to mil spec, powder coating, PTFE coating, and we also provide several other finishing processes such as electropolishing, chromate conversion, passivation, salt spray testing, selective masking and more. We also offer NCP Iridite and are RoHS compliant.

We are an approved vendor for many industrial, commercial and aerospace/defense companies such as Lockheed Martin, Boeing, Westinghouse and more. *In fact, we have recently been approved for the AS9003 which is for Inspection and Test Quality System with Lockheed Martin Space Systems!* Our processes conform to military specifications, are cost efficient and can provide quick turn-around. We would be pleased to discuss your finishing needs with you.
